## Certificate of Flame Retardance

Certification Date: 01/10/2017

Style: 1010

This certificate of compliance is issued to verify that Style 1010 has been treated with Class A Fire Retardant and/or has been manufactured with a portion of inherent flame retardant yarns.

Style 1010 is certified to meet NFPA-701 Small Scale.

This fabric meets or exceeds the flammability standards set forth in the National Fire Protection Association specification # NFPA-701. Any alteration of the fabric voids any warranty either implied or expressed. The liability of the seller is limited to the selling price as stated on the invoice and related transportation cost.
